

MICROLUBRICATION SYSTEM

Features

- Suitable for further processing for baldesaws
- Easy and quick to mount, magnetic attachment
- Simple to use, automatic

Benefits

- Precise lubrication, Environment remains clean
- Oil consumption is very small
- Lubrication Quantity can be adjusted at various points
- An effective Bladelubrication to improve the cutting performance and reduce the cost of the blade/machine

Technical Data

- Dimensions 500x250x200mm
- Weight 10kg
- operating voltage 220V
- Pneumatic supply connection min. 3 bar
- Oilcontainer 3 or 5 ltr
